New York June 7 1844

Dear Bro. Phelps

46

Thinking it may be a matter of some interest to you, from the connection you have had with N. E. Johnson, to know what has transpired within a few days in relation to him, I write to say that he has just been deposed from the ministry for licentiousness & believe other things. It is understood that he has for many years past been in the habit of frequenting houses of ill fame, even as far back as when he was pastor of the Houston St. Church, and that he has been accustomed to attending the theatre, also that he is addicted to intemperance - charges of the most astounding character, considering the position he has sustained.

You may have learned this from some other source but it has not yet got into the papers.

My children are all well, and I hope yours are also. How is your own health?

I should be glad to have the letter Caroline had from me & my wife if you have no objection.

When you are in N. York please call on me at 55 Exchange place.

Yours truly

W. H. Little

When I can be of any service to you please ~~use~~ me.
